PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer and BCA 2026 graduate from GASC Palkulam, with 2+ years of hands-on experience building and deploying real-world web and mobile applications. Proficient in PHP/MySQL, Flutter, and the MERN stack, with a growing focus on AI-powered development. Demonstrated ability to lead juniors, architect scalable systems, and ship production-grade software — from college portals to GPS-based attendance tools.

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript, Dart

Frontend: HTML5, CSS3, Bootstrap 5, Responsive Design

Backend: PHP (PDO/prepared statements), Node.js, Express.js

Mobile: Flutter & Dart — cross-platform iOS/Android

Databases: MySQL, MongoDB — design, normalisation, CRUD

APIs & DevOps: RESTful APIs, AJAX, Dio/Http, Hostinger deployment, .htaccess routing

Tools: Git, GitHub, VS Code, DataTables, Haversine geo-fencing

PROJECT EXPERIENCE

GASCKK Official College Website [🔗 Live Site](#)

Web Developer · 2023 – Present

- Designed and maintain the college's responsive public-facing site (gasckk.org.in) serving students, faculty, and visitors.
- Built a PHP–MySQL backend handling departmental activities, admission rank lists, exam updates, and committee management.
- Streamlined real-time content publishing for academic events, seminars, and resources.
- Optimised load times, improved SEO visibility, and ensured cross-device accessibility during peak academic periods.

Astra – Association Management System

Full-Stack Developer · 2024

- Architected a secure PHP/PDO API layer covering 12+ database modules with prepared statements to prevent SQL injection.
- Deployed the full-stack app on Hostinger (astraapp.gasckk.org.in), configuring MySQL access, file permissions, and .htaccess routing.
- Engineered a Bootstrap 5 admin panel with DataTables integration, mobile-first layout, and active navigation states.
- Built public features including a CSS-animated announcement ticker and dynamic component loading (Committees, Testimonials).
- Managed AJAX-driven file uploads for profile pictures, logos, and gallery media with server-side security validation.

Association Mobile App (Final Year Project)

Flutter Developer · 2025

- Built a cross-platform Flutter & Dart app for member management, event tracking, and guest profile handling.
- Designed scalable state management for modules covering committees, awards, and annual activities.
- Integrated RESTful APIs with Dio/Http; implemented secure image/document upload with robust fallback handling.
- Added fast search via unique Association IDs; optimised performance across iOS and Android with thorough input validation and API sanitisation.

GPS-Based Shop Visit Attendance System

Full-Stack Web & App Developer · 2025

- Developed a GPS attendance system for field employees using geo-fencing and real-time location tracking.

- Implemented RESTful APIs for check-in, check-out, and shop-visit management using Node.js/PHP.
- Applied the Haversine formula for accurate distance validation to prevent proxy attendance.
- Designed MySQL schema for users, shops, and attendance records; enabled offline data sync and admin reporting.

CERTIFICATIONS & TRAINING

- **Oracle App Development** — ADROIT, 2024
- **Java Spring Network** — ADROIT, 2024
- **Python Coding Foundations** — Infosys Springboard, 2025
- **Additional technical training** — 2024–2026 (view all on Google Drive)

EDUCATION

Bachelor of Computer Applications (BCA) · *Expected 2026*

Government Arts and Science College, Palkulam, Kanyakumari – 629401

Affiliated to Manonmaniam Sundaranar University · Core: Programming, Data Structures, OS, DBMS, Networks, Web Development

LEADERSHIP & MENTORSHIP

College Web Development Team Lead

- Mentoring 1st and 2nd-year students in MERN stack fundamentals and real-world project workflows.
- Conducting hands-on sessions in backend integration, responsive design, and cloud deployment.

LANGUAGES

Tamil (Native) **English** (Intermediate)
