Professional Summary

Aspiring and results-driven Web Developer currently pursuing BCA (3rd Year) at **Government Arts and Science College, Paulkulam, Kanyakumari – 629401**. Actively contributing to the college web development team since 2023, gaining hands-on experience in collaborative projects and real-world implementation. Skilled in PHP and MySQL, with a focus on building scalable backend systems and managing complex databases. Known for a strong problem-solving mindset and a passion for creating efficient, user-focused web applications. Eager to apply technical knowledge and creativity to impactful digital solutions while continuously learning and growing in the field of web development.

PROJECT EXPERIENCE

Web Developer
GASCKK.ORG.IN

2023 to Present

- Designed and maintained the official college website with a clean, responsive, and user-friendly interface tailored for students, faculty, and visitors.
- Developed a robust PHP–MySQL backend to manage key operations including departmental activities, admission ranklists, exam updates, and committee details.
- Streamlined content publishing workflows for academic departments, enabling real-time updates of seminars, events, and educational resources.
- Optimized site performance for faster load times, improved SEO visibility, and seamless accessibility across devices and browsers.
- Ensured technical reliability and scalability, supporting consistent uptime and smooth user experience during peak academic periods.

Flutter Developer
Association App (Final Year Project)

- Developed a cross-platform mobile app using Flutter & Dart for member management, event tracking, and guest profiles.
- Architected scalable state management for modules like committees, awards, and annual activities.
- Integrated RESTful APIs with Dio/Http; built secure image/document upload with fallback handling.
- Implemented fast search via unique Association IDs; optimized for performance and mobile responsiveness.
- Ensured security through input validation and API sanitization across iOS and Android platforms.

Full-Stack Developer
Astra Association Management System

- Secured API & Architecture:** Designed and built a scalable PHP/PDO API layer for all C.R.U.D. operations across 12+ database modules, utilizing Prepared Statements to ensure data integrity and prevent SQL injection.
- Cloud Deployment & DevOps:** Successfully deployed and configured the entire application environment on Hostinger (accessible via astraapp.gasckk.org.in), managing MySQL access, file permissions, and complex .htaccess routing for a secure production launch.
- Developed Modern Admin Interface:** Engineered a fully responsive admin panel using Bootstrap 5 (Mobile-First), featuring DataTables integration for high-efficiency data management and clear, active navigation state indicators.
- Enhanced Frontend Dynamics:** Implemented cutting-edge public features, including a CSS-animated scrolling announcement ticker and dynamic component loading (Committees, Testimonials) for optimal user experience.
- Optimized Data Workflow:** Managed AJAX file handling for profile pictures, logos, and gallery media, streamlining administrative workflows and ensuring server-side file security

Full-Stack Web&App Developer
GPS-Based Shop Visit Attendance System (Live Project)

- Developed a GPS-based attendance system for field employees using geo-fencing and real-time location tracking.
- Implemented RESTful APIs for check-in, check-out, and visit management using Node.js/PHP.

- Designed MySQL database for efficient storage of users, shops, and attendance records.
- Integrated Haversine formula for accurate distance validation and prevented proxy attendance.
- **Enabled offline data sync, admin dashboard reporting, and performance tracking features.**

CAREER OBJECTIVE

Results-driven and highly adaptable aspiring Full-Stack Developer with strong foundation in MERN stack (MongoDB, Express.js, React.js, Node.js) and a keen interest in AI-powered development. Adept at creating scalable, high-performance, and user-focused applications using modern coding practices and emerging technologies. Eager to contribute technical expertise, creativity, and continuous learning mindset to a forward-thinking organization while delivering impactful digital solutions.

EDUCATION

Year of Completion : 2026

Government Art's and Science College, Palkulam ,Kanyakumari-629401

Affiliated to **Manonmaniam Sundaranar University**

Bachelor of Computer Application (BCA) – Major: programming, data structures, operating systems, DBMS, networks, and web development.

OTHER

- **Technical Skills:** Proficient in C, C++, Java, Python, and JavaScript for software and web development, along with HTML, CSS, PHP, MySQL, and responsive design. Skilled in SQL queries, database normalization, relational concepts, algorithmic thinking, and debugging techniques.
- **Certifications & Training:** Certified in **Oracle App Development, Java Spring Network, and Python Coding Foundations** through ADROIT and Infosys Springboard (2024–2026). Strengthened backend, app development, and programming fundamentals.
- **Languages:** Tamil (native), English (intermediate)
- **Mentorship & Leadership**

Training 1st and 2nd-year juniors in the college web development team on MERN stack fundamentals and project workflows.

Leading hands-on sessions in backend integration, responsive design, and deployment strategies to strengthen team capabilities.
