Certifications: [View on Drive](#)

PROFESSIONAL SUMMARY

Full-Stack Developer and BCA (2026) graduate with 2+ years of experience building and deploying production web and mobile applications using PHP/MySQL, the MERN stack, and Flutter. Certified in Java and Spring fundamentals, and currently pursuing further Java Full Stack Developer training to build on a strong foundation in object-oriented programming, REST API design, and relational databases. Skilled in secure backend architecture, responsive UI development, and team mentorship, with hands-on delivery from college portals to GPS-based attendance systems.

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript, Dart

Frontend: HTML5, CSS3, Bootstrap 5, Responsive Design

Backend & Mobile: PHP (PDO, prepared statements), Node.js, Express.js, Flutter & Dart (cross-platform iOS/Android)

Databases: MySQL, MongoDB — schema design, normalisation, CRUD

APIs & DevOps: RESTful APIs, AJAX, Dio/Http, Hostinger deployment, .htaccess routing, geo-fencing (Haversine formula)

Tools: Git, GitHub, VS Code, DataTables

PROJECT EXPERIENCE

GASCKK Official College Website — Web Developer | *Live Site: gasckk.org.in* 2023 – Present

- Designed and maintain a responsive public-facing PHP/MySQL site serving students, faculty, and visitors, handling departmental activities, admission rank lists, exam updates, and committee management.
- Streamlined real-time content publishing for academic events and resources; optimised load times and SEO during peak admission periods.

Final Year Project — Association Management System (Web + Mobile) | *PHP/MySQL, Flutter* 2024 – 2025

- Developed a full-stack Association Management System using **PHP, MySQL, Bootstrap 5, REST APIs, and Flutter**, featuring secure authentication, member/event management, media uploads, and responsive admin dashboards.
- Integrated cross-platform mobile and web applications with optimized search, scalable database architecture, and secure API communication, deployed on **Hostinger**.

GPS-Based Shop Visit Attendance System — Full-Stack Developer | *Node.js/PHP, MySQL* 2025

- Built a geo-fencing attendance system for field employees with real-time location tracking and the Haversine formula for accurate distance validation to prevent proxy attendance.
- Designed REST APIs for check-in/check-out and shop-visit management, with a MySQL schema for users, shops, and attendance records, offline data sync, and admin reporting.

CERTIFICATIONS & TRAINING

- Oracle App Development — ADROIT, 2024
- Java Spring Network — ADROIT, 2024
- Python Coding Foundations — Infosys Springboard, 2025
- Java Full Stack Developer Training — Vinsys IT Services India Ltd & Generation India, 2026
- Additional technical training, 2024–2026 (full certificates linked above)

EDUCATION

Bachelor of Computer Applications (BCA) | *Govt. Arts and Science College, Palkulam, Kanyakumari* Expected 2026

- Affiliated to Manonmaniam Sundaranar University. Core coursework: Programming, Data Structures, Operating Systems, DBMS, Networks, Web Development.

LEADERSHIP & MENTORSHIP

College Web Development Team Lead

- Mentor 1st- and 2nd-year students in MERN stack fundamentals and real-world project workflows, conducting hands-on sessions on backend integration, responsive design, and cloud deployment.

LANGUAGES

Tamil (Native) • English (Intermediate)
